Professional Summary

Results-driven Node.js Backend Developer with hands-on experience in building scalable RESTful APIs, microservices, and high-performance backend systems. Skilled in server-side development using Node.js and Express.js with strong focus on performance optimization, security, and reliability. Experience in AWS deployment, Docker, CI/CD, and payment integrations. Proven ability to develop production-grade systems and handle real-time data processing.

Core Skills

Backend Development, Server-side Development, API Development, RESTful APIs, Node.js, Express.js, Microservices Architecture, System Design, Scalable Systems, Redis, MongoDB, MySQL, JWT, OAuth2, RBAC, AWS (EC2, S3), Docker, CI/CD, Razorpay, Stripe

Professional Experience

Software Development Engineer (Backend)

Time Diginitor Build Pvt. Ltd., Pune

Sep 2024 – Apr 2025

- Developed 15+ scalable REST APIs for authentication, subscriptions, and business workflows
- Reduced API latency by 40% using query optimization, indexing, and caching
- Built secure authentication systems using JWT, refresh tokens, and RBAC
- Integrated Razorpay with robust webhook handling and retry mechanisms
- Deployed applications on AWS EC2 using Docker and CI/CD pipelines
- Implemented Redis caching to improve performance under load

MERN Stack Intern

PN Infosys, Gwalior

Jan 2023 – Jan 2024

- Built backend services using Node.js and Express.js

- Developed real-time chat system using Socket.io with JWT authentication
 - Integrated Stripe payment gateway
 - Worked in Agile team delivering production-ready features
-

Projects

MERN E-commerce Platform

- Built scalable backend handling products, users, and orders
- Designed REST APIs ensuring low latency and high throughput
- Integrated Razorpay payment system with verification
- Used modular architecture for maintainability

SaaS Subscription Platform

- Developed backend for subscription lifecycle and listings
 - Implemented GeoJSON-based location search
 - Built webhook-based Razorpay subscription system
 - Optimized queries for performance
-

Education

Bachelor of Commerce (B.Com)
Maharishi Mahesh Yogi Vedic Vishwavidyalaya
2021 – 2023

Self-Taught Coursework

Data Structures, Backend Development, Database Design, Cloud Computing
