SUMMARY

Results-driven Backend Engineer specializing in scalable REST APIs, distributed systems, authentication architecture, payment systems, caching, and cloud-native deployments. Strong expertise in Node.js, Express.js, MongoDB, Redis, Docker, AWS, CI/CD, and backend optimization for high-performance production applications.

EXPERIENCE

*TimeDiginitor Build Pvt. Ltd., **Software Development Engineer (Backend)***

Sep 2024 - Apr 2025

- Developed and deployed 15+ scalable REST APIs for authentication, subscriptions, and business workflows.
- Reduced API latency by 40% through MongoDB indexing, Redis caching, and query optimization.
- Implemented secure authentication architecture using JWT, refresh tokens, and RBAC.
- Integrated Razorpay payment gateway with webhook validation and retry handling.
- Containerized applications using Docker and deployed on AWS EC2 through CI/CD pipelines.
- Improved backend reliability and scalability for production workloads.

*PN Infosys, **MERN Stack Intern***

Jan 2023 - Jan 2024

- Built scalable backend services using Node.js and Express.js.
- Developed real-time chat applications using Socket.io and JWT authentication.
- Integrated Stripe payment gateway for secure transaction handling.
- Worked in Agile teams delivering production-ready features.

EDUCATION

Maharishi Mahesh Yogi Vedic Vishwavidyalaya

Bachelor of Commerce (B.Com)

SKILLS

Node.js • Express.js • REST APIs • Microservices • MongoDB • Redis • MySQL • AWS • Docker • CI/CD
