Professional Summary

Node.js Backend Engineer with hands-on experience building scalable REST APIs, authentication systems, and payment integrations. Skilled in Node.js, Express.js, MongoDB, AWS, and Docker for developing secure and high-performance backend services. Experienced in designing microservices, optimizing database queries, and deploying production applications using CI/CD pipelines. Passionate about building reliable backend systems and solving complex engineering problems.

Technical Skills

- **Backend:** Node.js, Express.js, REST APIs, Microservices, Webhooks, Socket.io
 - **Databases:** MongoDB, MySQL (Basic), Redis (Basic)
 - **Cloud & DevOps:** AWS (EC2, S3), Docker, Nginx, GitHub Actions
 - **Security:** JWT, OAuth2, RBAC
 - **Payments:** Razorpay, Stripe
 - **Tools:** Git, GitHub, Postman, Jira, VS Code
 - **Language:** JavaScript (ES6+)
-

Experience

Software Development Engineer (Backend)

Time Diginitor Build Pvt. Ltd. | Pune | Sep 2024 – Apr 2025

- Developed **15+ production-ready REST APIs** for authentication, subscription management, and business listing services.
- Implemented **secure authentication system** using **JWT**, **refresh tokens**, and **RBAC authorization**.
- Integrated **Razorpay payment gateway** with webhook verification and automated retry handling.
- Deployed **Dockerized backend services on AWS EC2** with CI/CD pipelines using GitHub Actions.
- Optimized **MongoDB queries and indexing**, improving API response time by **40%**.

MERN Stack Intern

PNinfosys, Gwalior | Jan 2023 – Jan 2024

- Built backend services for **e-commerce and real-time chat applications** using Node.js and MongoDB.
- Implemented **Stripe payment integration** with secure checkout workflows.
- Developed **real-time chat system** using **Socket.io** and **JWT authentication**.

Key Projects

MERN E-commerce Platform

GitHub: github.com/jayrajrao

- Built full-stack e-commerce system with **product catalog, cart, orders, and payment integration.**
- Developed scalable **REST APIs using Node.js and Express.js** with JWT authentication.
- Implemented **Razorpay payment gateway** with order verification

Tech Stack: React, Node.js, Express.js, MongoDB, Razorpay

Every@Service – Business Listing Platform (Production App)

- Developed backend services for **live production application** supporting business listings and subscription plans.
- Implemented **location-based search using MongoDB GeoJSON.**
- Integrated **Razorpay subscription payments and secure webhook.**

Tech Stack: Node.js, Express.js, MongoDB, Razorpay

Education

- **B.Com** – Maharishi Mahesh Yogi Vedic Vishwavidyalaya (2020 – 2023)

Languages

- English – Professional Proficiency
- Hindi – Native
- Marathi - Professional Proficiency
