Professional Summary

Full Stack MERN Developer with strong backend engineering expertise and hands-on experience building scalable applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API integration, payment systems, authentication, performance optimization, and cloud deployment workflows.

Technical Skills

React.js, Node.js, Express.js, MongoDB, REST APIs, JavaScript, HTML5, CSS3, JWT, Redux, Redis, AWS, Docker, Git, CI/CD, Razorpay

Professional Experience

Software Development Engineer (Backend) | TimeDiginitor Build Pvt. Ltd., Pune | Sep 2024 – Apr 2025

- Developed and deployed 15+ scalable REST APIs for authentication, subscriptions, and business workflows.
- Reduced API latency by 40% through MongoDB indexing, Redis caching, and query optimization.
- Implemented secure authentication architecture using JWT, refresh tokens, and RBAC.
- Integrated Razorpay payment gateway with webhook validation and retry handling.
- Containerized applications using Docker and deployed on AWS EC2 through CI/CD pipelines.
- Improved backend reliability and scalability for production workloads.

MERN Stack Intern | PN Infosys, Gwalior | Jan 2023 – Jan 2024

- Built scalable backend services using Node.js and Express.js.
- Developed real-time chat applications using Socket.io and JWT authentication.
- Integrated Stripe payment gateway for secure transaction handling.
- Worked in Agile teams delivering production-ready features.

Projects

Distributed MERN E-commerce Platform

- Built scalable backend architecture handling products, users, and order workflows.
- Designed optimized REST APIs ensuring low latency and high throughput.
- Implemented secure Razorpay payment verification and webhook handling.
- Applied modular architecture for maintainability and scalability.

SaaS Subscription Platform

- Developed backend services for subscription lifecycle management.
- Implemented GeoJSON-based location search and optimized query performance.
- Designed Razorpay webhook-based subscription handling system.
- Built scalable APIs for business listing workflows.

Education

Bachelor of Commerce (B.Com) — Maharishi Mahesh Yogi Vedic Vishwavidyalaya (2020 – 2023)
